## (54) REPRODUCING DEVICE AND MEMORY MEDIUM

## (57)Abstract:

**PROBLEM TO BE SOLVED:** To provide a reproducing device which allows the reproduction of speech data in exactly the same reproduction sequence, etc., without rewriting a reproduction operation program if the same memory medium is used.

**SOLUTION:** The reproducing device 10 which is mounted with the memory medium 20 recorded with the speech data and reads out and reproduces the speech data 22 in the memory medium 20 includes a mounting means 15 which mounts the memory medium 20 previously recorded with the reproduction operation program 24, a reading-out means 12 which reads out the reproduction operation program 24 in the memory medium 20 when the memory medium 20 is mounted at the mounting means 15 and a control means 19 which reads out the speech data 22 from memory medium 20 according to the reproduction operation program 24 read out by the reading-out means 12 and reproduces the read out speech data 22.

## LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]
